

ICT in the Classroom

Koru

Ipads

- ⇒ **Spelling City App** used during Reading Rotations—Students have their own spelling words that they work on each week. This app helps them to learn these words through fun and interactive games.
- ⇒ **Seesaw** Communication with whanau—This app allows students to celebrate their learning and share with their whanau—They will be given a task each week to complete.
- ⇒ **Maths Games** Used during Math Rotations—These games are used to enhance their learning of a strategy they are learning in their maths group.

Computers

- ⇒ **Studyladder** used during Reading and Maths Rotations.—Teacher has set tasks for students to complete that are relevant to the students learning..
- ⇒ **Shephard Software** Maths games used during Maths Rotations to enhance the skill they are working on. Mostly during our fractions unit.
- ⇒ **Desk Top Software** Usually used when the internet isn't working.

No IPADS or COMPUTERS used without a teacher in the room!
