Dear Parents/Caregivers,

Your child has been selected to participate in the Lexia Reading Programme to support him/her at school.

Lexia is a digital literacy programme. It targets specific needs of each child and adapts as new skills are learned. The target skills are, Phonological Awareness, Phonics, Vocabulary, Structural Analysis, Fluency and Comprehension. The programme self monitors and tracks their progress and informs teachers where there are gaps in their literacy learning.

It can be accessed online through the Lexia Core 5 website or on devices through the Lexia Core 5 App. (If you Google search Lexia Core 5 you should find this site.)

<http://www.lexiacore5.com/?SiteID=4478-6027-0596-0902>

Each child has an individual logon using their first name and last letter and their surname as the username and the password is kurakid (all lower case) e.g Username: mikel Password: kurakid

The first time they log in on a new laptop/device you will need to enter your teachers email to verify.(no password required) Children are given opportunity during Literacy times to work on the Lexia Programme. We are encouraging children to work on this as a form of homework as they can access this from home on a computer or device using their individual logon.

The following link has more specific information about Lexia. Please don't hesitate to contact your child's teacher if you would like more information.
