Dear Parents/Caregivers

We are delighted to inform you that your child, has been given a place in this term's SPRING into maths programme.

SPRING is a maths intervention programme which aims to accelerate the learning of number concepts for students who need some extra support. This programme is being run by Rachel Griffiths, one of our teacher aides.

Students have been identified and carefully placed into one groups. Each group will be involved in a 30-minute SPRING lesson, 2 days a week (Monday and Thursday afternoons). The components are levelled at whatever level students are currently at, and cover these aspects:

- S** Start counting – counting forwards and backwards
- P** Patterns – looking for patterns
- R** Reinforce Strategy
- I** Identifying numbers – ordering, identifying bigger and smaller numbers etc.
- N** Number facts – basic facts
- G** Game

Students are monitored closely. Most students show progress, increased confidence and are more self-aware of their mathematical ability after working in this programme.

If you have any questions about the programme or your child's progress, please do not hesitate to contact me.

Thank you
Mike Laing
